

**sku 0267 | PREVAL SPRAYER**

The Preval Sprayer is an aerosol-based spray system that allows the user to mix up any paint, chemical or solution and turn it in to sprayable material through Preval's patented Venturri Vacuum Process. This process draws the medium from the attached reservoir and delivers a professional-grade finish on virtually any surface without mixing the propellant and medium together. This results in an unadulterated finish with no color change. The Preval Sprayer is a professional spray system for countless applications.

**FEATURES AND BENEFITS INCLUDE:**

- Easy replacement and cleanup with interchangeable and disposable parts
- Use with the medium of your choice and custom mix your own colors
- Store medium in the included lidded containers
- Great for DIY projects
- Professional grade finish
- Output Pressure: 70 psi
- Proudly made in the USA!

**SPRAYER INCLUDES:**

- 1 | Preval Power Unit
- 1 | 6 oz. Glass Jar
- 1 | Container Lid
- 1 | Spray Nozzle
- 1 | Dip Tube with Filter

### sku 0223 | PREVAL VALPACK

The Preval team introduces our best value for your home, workshop, garage or job site. The Preval ValPak is a complete assortment of Preval Sprayers and Sprayer accessories. This cost-effective kit provides everything you need to apply multiple types of paints, chemicals, finishes, coatings and most other liquid mediums in a multitude of preparation, touch-up and maintenance applications. Ideal for commercial and DIY projects, every Preval Power Unit atomizes up to 16 oz. of virtually any liquid without mixing the propellant into your chosen medium thereby leaving you with unadulterated finishes with no change in color. Included with the ValPak kit are an assortment of accessories including extra reservoirs that enable you to switch easily between different liquids for different projects. Once the project is over, store the remaining material in our reservoirs for later use.

#### VALPACK INCLUDES:

- 1 | Preval Sprayer Unit
- 2 | Power Units
- 8 | Kosmos/Spray Buttons
- 1 | vGrip
- 4 | 6 oz. Glass Jars
- 4 | 6 oz. Plastic Jars
- 4 | 3 oz. Plastic Jars
- 16 | Dip Tubes
- 8 | Bottle Lids

**sku 3005-1 | vGRIP (12-PACK)**

The Preval vGrip is a gun handle with an ergonomic trigger that snaps onto the Preval Sprayer with ease. The vGrip will also work on most standard aerosol cans.

vGrip takes the pain out of spraying aerosols. Daily aerosol users — professionals or hobbyists — may experience pain to parts of their actuating finger(s) which can lead to numbness, tingling, weakness or muscle damage in the hand and fingers similar to carpal tunnel syndrome — a condition in which there is long term pressure on the user's median nerve.

**sku 0268-9 | PREVAL POWER UNIT 9-PACK DISPLAY**

The Preval Power Unit is the pressurized replacement unit for the Preval Sprayer, this retail countertop display contains nine individual units. Ideal for in-the field automotive touch-ups, every Preval Power Unit secures to a recyclable glass bottle and atomizes virtually any color-matched paint, formula, or solution with consistent results. Unlike most other aerosol paints, each Preval Power Unit uses just 1.97 oz. of eco-friendly propellant to spray up to 16oz. of liquid. Easily attaching to our line of product containers, the Power Unit allows for rapid interior and exterior automotive coating applications.

**POWER UNIT INCLUDES:**

- 1 | Preval Power Unit
- 1 | Spray Nozzle
- 1 | Dip Tube with Filter

**CASE QUANTITY**

**sku 0100 | vFAN SPRAY SYSTEM**

Our award-winning vFan Spray System is a professional portable airbrush system that delivers paints, chemicals, solvents or any other liquid medium imaginable without any adulterations or color shifts. The vFan Airbrush is the world's first 0.9 mm airbrush which allows the user to fully control the flow from a 1/16" detailed line to a 3" fan pattern with total consistency and almost no overspray. For the first time, professionals can easily atomize any coating or liquid, on any project.

Our siphon-fed, dual-action, stainless steel and brass vFan Airbrush delivers professional results with our 150 Feet of Energy — a 2-in-1 pocket aerosol compressor and duster — and also works with any standard compressor. The vFan Spray System is an all-in-one touch-up system for precision painting, surface preparation, touch-ups and curing. We suggest using our 150 Feet of Energy with our EDU (not included) for long lasting use.

**THE vFAN SPRAY SYSTEM INCLUDES:**

- 1 | vFan Airbrush
- 1 | 0.9 mm Fan Air Cap
- 1 | 0.9 mm Standard Air Cap
- 2 | Cans of 150 Feet of Energy
- 3 | Product Containers (6 oz., 3 oz. and 1 oz.)
- 1 | 6' Air Hose with 1/4" NPT
- 1 | Extra 0.9 mm Needle
- 1 | Pressure Tank Regulator for 150 Feet of Energy

**CASE QUANTITY**  
 EACH | 1

**sku 0965 | PREVAL vFAN PROPACK**

Our vFan Pro Pack is a professional airbrush system in a convenient pack. The vFan delivers paints, chemicals, solvents or any other liquid medium imaginable without any adulterations or color shifts.

The vFan Airbrush is the world's first 0.9 mm airbrush which allows the user to fully control the flow from a 1/16" detailed line to a 3" fan pattern with total consistency and almost no overspray.

**THE vFAN PROPACK INCLUDES:**

- 1 | vFan Airbrush
- 1 | 0.9 mm Fan Air Cap
- 1 | 0.9 mm Standard Air Cap
- 3 | Product Containers (6 oz., 3 oz. and 1 oz.)
- 1 | 6' Air Hose with 1/4" NPT
- 1 | Pressure Tank Regulator for 150 Feet of Energy

**CASE QUANTITY**  
 EACH | 1

**sku 0917 | vFAN AIRBRUSH**

The vFan Airbrush is a professional portable airbrush that delivers paints, chemicals, solvents or any other liquid medium imaginable without any adulterations or color shifts. The vFan Airbrush is the world's first 0.9 mm airbrush which allows the user to fully control the flow from a 1/16" detailed line to a 3" fan pattern with total consistency and almost no overspray. For the first time, professionals can easily atomize any coating or liquid, on any project at a fraction of the cost of most HVLP or air-less spray systems.

Our siphon-fed, dual-action, stainless steel and brass vFan Airbrush delivers professional results with our 150 Feet of Energy — a 2-in-1 pocket aerosol compressor and duster — and also works with any standard air compressor. The vFan Airbrush is the solution for precision painting, surface preparation, touch-ups and curing.

**THE vFAN INCLUDES:**

- 1 | vFan Airbrush
- 1 | 0.9 mm Standard Air Cap
- 1 | 0.9 mm Fan Air Cap
- 1 | 0.9 mm FluidTip
- 1 | 0.9 mm Needle
- 1 | 1/4 oz gravity-fed Metal Cup

**CASE QUANTITY**

EACH | 1

**sku 0924 | vFAN GRAVITY SPRAY SYSTEM**

Our vFan Gravity Spray System is a professional portable airbrush system that delivers just about any liquid medium. From paints to solvents, the vFan Gravity allows the user to fully control the flow from a 1/16" detailed line to a 3" fan pattern. Our professional spray system delivers the exact formula that you need without any adulterations or color shifts. With the vFan Gravity, gravity itself acts as a siphon for the product while retaining all of the versatility of our original vFan airbrush. Unlike other comparable gravity fed airbrushes, your medium is securely contained within the vFan Gravity's reservoir using our threaded lid. This means that no matter how you hold the airbrush, professionals can get into those hard to reach places without wasting any material.

The dual-action system is powered by our 150 Feet of Energy (not included), a 2-in-1 pocket aerosol compressor and duster, and is also compatible with any standard compressor.

**THE vFAN GRAVITY SYSTEM INCLUDES:**

- 1 | vFan Gravity Airbrush
- 1 | 0.9 mm Fan Air Cap
- 1 | 0.9 mm Standard Air Cap
- 2 | Product Containers (1 oz. each)
- 1 | 6' Air Hose with 1/4" NPT
- 1 | Pressure Tank Regulator for 150 Feet of Energy

**sku 0271-1 | PREVAL TOUCH-UP JARS**

The 2.94 oz. Preval Touch-Up Jars are solvent-proof and ideal for multi-color applications. Storing is now even easier, and each touch-up jar comes with its own label!

**FEATURES AND BENEFITS INCLUDE:**

- Compliant with recent National Emission Standards for Hazardous Air Pollutants (NESHAPs) (EPA Rule 40 CFR Part 63-Subpart 6H)
- Compatible with both the vFan Spray System and the Preval Sprayer
- Proudly made in the USA!

**CASE QUANTITY**

CASE | 4

**sku 0168 | PREVAL 150 FEET OF ENERGY**

Preval's 150 Feet of Energy is a 2-in-1 pocket compressor and duster. As the popular power-source behind our vFan line of airbrushes, each compressor unit enables professional results with portable flexibility without the need for an electric air compressor. Each unit delivers 15-40 sq. ft. of paint coverage with enough cubic feet per minute to deliver a perfect finish using automotive paints, lacquers, urethanes, latex, clear coat, solvent-based paints and more. Our 150 Feet of Energy also work as powerful air dusters to blow out hard-to-reach spaces and reduce cleanup times.

**CASE QUANTITY**

EACH | 1

CASE | 12

**sku 0960 | ENERGY DISBURSEMENT UNIT**

If you need more than a quick touch-up, you will be impressed with our Preval Energy Disbursement Unit (EDU). The EDU delivers a long lasting, continuous spray from each of our 150 Feet of Energy units by increasing the liquid mass of each pressurized can.

Our EDU system, when filled about halfway with water, insulates our 150 Feet of Energy units and keeps our aerosols working at a consistent temperature to deliver a longer lasting, more continuous spray. This innovation gives you five times the spray duration than when using the 150 Feet of Energy alone.

**CASE QUANTITY**

EACH | 1

**sku 0923 | PREVAL EVEN-FLOW COMPRESSOR**

Our Even-Flow Compressor is the perfect partner. Designed to work perfectly with our vFan line of airbrushes, the Even-Flow Compressor is a medium-duty 1/6 HP oil-less dual-piston compressor with a 60 psi maximum output rating. The dual-piston construction provides smooth consistent spray pattern for any project while weighing a mere 14 lbs. The automatic shut-off feature allows the compressor to temporarily power down while not in use. This decreases any heat-related moisture issues, minimizes overall motor wear and reduces total energy consumption.

**CASE QUANTITY**  
EACH | 1**SPECIFICATIONS**

1/6 Horsepower  
Dual-Piston / Oil-less  
Automatic Shut-Off Feature  
60 psi Max Output Pressure  
5 CFM at 20 psi  
Runs on 120 Volts

**sku 0900 | 6' AIR HOSE**

Increase mobility and versatility with this 6' Air Hose. The stainless steel fittings and durable nylon braiding over rubber hosing hold up to any job.

**FEATURES AND BENEFITS INCLUDE:**

- Extremely durable.
- Attaches to most workshop compressors as well as all vFan adaptors.
- Designed to work with our Even-Flow Compressor and our 150 Feet of Energy.

**CASE QUANTITY**  
EACH | 1**sku 0961 | 30' AIR HOSE**

Strong, long and reliable, our 30' nylon-braided airbrush hose is designed to be used with our Even-Flow Compressor and our 150 Feet of Energy units.

The latex inner hose has superior flexibility and strength, an 1/8" inner diameter and a 1/4" female compressor attachment.

**CASE QUANTITY**  
EACH | 1

**sku 0939 | 0.38 MM STANDARD AIR CAP**

Our brass-plated 0.38 mm Standard Air Cap\* for the vFan or vFan Gravity is the perfect solution for those with enhanced detailed needs. The 0.38mm Standard Air Cap atomizes paints to nano sizes, enabling advanced airbrush artists to obtain incredible detail with a 1/32" line.

All of our air caps are made to work with our vFan line of airbrushes and are simple to attach thereby making it effortless to switch between spray patterns. They are designed to give your airbrush a finer, lighter and more detailed finish to achieve perfect professional results. Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1**sku 0943 | 0.38 MM FLUID TIP**

Achieve perfect paint flow with the vFan Airbrush by using our nickel plated silver 0.38 mm FluidTip in conjunction with the 0.38 mm Needle and Air Cap.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1**sku 0942 | 0.38 MM NEEDLE**

Made of rust-resistant, machined stainless steel, our 0.38 mm Airbrush Needle for the vFan and vFan Gravity is ideal for delivering an even spray pattern and features a high-polish, smooth finish for easy cleaning.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1

**sku 0904 | 0.66 MM STANDARD AIR CAP**

Our 0.66 mm Standard Air Cap is made of plated brass and can create up to 1/24" hairline details for professional painting results. All of our air caps are made to work with our vFan line of airbrushes and are simple to attach thereby making it effortless to switch between spray patterns. They are designed to give your airbrush a finer, lighter and more detailed finish to achieve perfect professional results.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1**sku 0905 | 0.66 MM FAN AIR CAP**

Our 0.66 mm Fan Air Cap\* is made of plated brass and can create a fan pattern from 1/4" up to 3" for professional painting results. All of our air caps are made to work with our vFan line of airbrushes and are simple to attach thereby making it effortless to switch between spray patterns. They are designed to give your airbrush a finer, lighter and more detailed finish to achieve perfect professional results.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1**sku 0918 | 0.66 MM FLUID TIP**

Achieve perfect paint flow with the vFan Airbrush by using our nickel plated silver 0.66 mm FluidTip in conjunction with the 0.66 mm Needle and Air Cap.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1

**sku 0916 | 0.66 MM NEEDLE**

Made of rust-resistant, machined stainless steel, our 0.66 mm Airbrush Needle for the vFan and vFan Gravity is ideal for delivering an even spray pattern and features a high-polish, smooth finish for easy cleaning.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1**sku 0956 | 0.9 MM FAN AIR CAP**

The 0.9 mm Fan Air Cap comes standard with all of our vFan line of airbrush. It is large enough to atomize metallic materials. Spray as much or as little detail as you like with the vFan or vFan Gravity.

This adjustable air cap must be used in conjunction with the 0.9 mm Needle and 0.9 mm Fluid Tip to deliver maximum material flow for large jobs or a minimal material flow for smaller jobs all with a wider spray pattern.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1**sku 0957 | 0.9MM STANDARD AIR CAP**

The 0.9 mm Standard Air Cap comes standard with all of our vFan line of airbrushes. To obtain hairline details when airbrushing, our 0.9 mm Standard Air Cap must be used in conjunction with the 0.9 mm Needle and 0.9 mm Fluid Tip to deliver maximum material flow for larger jobs that demand hairline details.

Proudly made in the USA!

**CASE QUANTITY**  
EACH | 1

**sku 0958 | 0.9 MM FLUID TIP**

The 0.9 mm Fluid Tip comes standard with our vFan and vFan Gravity. Achieve perfect paint flow for a broad range of applications by using our nickel plated silver 0.9 mm Fluid Tip in conjunction with the 0.9 mm Needle and either the 0.9 mm Fan Air Cap or 0.9 mm Standard Air Cap.

Proudly made in the USA!

**CASE QUANTITY**

EACH | 1

**sku 0959 | 0.9 MM NEEDLE**

The 0.9 mm Needle comes standard with the vFan and vFan Gravity. It is made of rust-resistant, machined stainless steel and is ideal for delivering an even spray pattern. It features a high-polish, smooth finish for easy cleaning.

Proudly made in the USA!

**CASE QUANTITY**

EACH | 1

**sku 0901 | VALVE SPRING**

These replacement Valve Springs are essential for valve closure and proper trigger release. Keep spares on hand to ensure your projects with our vFan line of airbrushes can continue uninterrupted.

**CASE QUANTITY**

EACH | 1

**sku 0914 | VALVE PLUNGER**

Our Valve Plunger is the key to controlling airflow effectively when depressing the vFan or vFan Gravity's Trigger Assembly. This plunger is precision-made for smooth, reliable action.

**CASE QUANTITY**

EACH | 1

**sku 0915 | TRIGGER ASSEMBLY**

Our Trigger Assembly enables complete control of airflow and material for the vFan and vFan Gravity. Its smooth finish and machined finger-ridge grip provides a comfortable and easy-to-control method of application.

Proudly made in the USA!

**CASE QUANTITY**

EACH | 1

**sku 0908 | ROCKER ASSEMBLY**

Made of plated brass for durability and easy cleaning, the Rocker Assembly for the vFan and vFan Gravity holds the needle in line to ensure the functionality of the airbrush and pivots for enhanced triggering action.

Proudly made in the USA!

**CASE QUANTITY**

EACH | 1

**sku 0906 | PACKING ASSEMBLY**

How can our vFan line of airbrushes work with water-based, solvent-based and oil-based finishes? The Packing Assembly is protected with a proprietary solvent-proof coating therefore providing a smooth, solvent-proof seal around your vFan or vFan Gravity needle. This keeps possibly corrosive material from damaging other components within the airbrush.

Proudly made in the USA!

**CASE QUANTITY**

EACH | 1

**sku 0909 | NEEDLE LOCKNUT**

This Needle Locknut ensures that the airbrush needle of the vFan or vFan Gravity is firmly connected to the rocker assembly.

Proudly made in the USA!

## PN36-7 | RE-GRIP SMALL

Re-Grip® is a universal solution to applying a new hand grip. Significantly improving the few options on the market, Re-Grip® uses strong, durable elastic material to provide mechanical and environmental protection while enhancing comfort for the user. It is ergonomic and reduces muscle fatigue while having non-slip properties for better control and safety. With its special patented design, Re-Grip® is easy for anyone to install. The elastic grip is held extended by an inner coil, forming a tube that fits over the handle. The user simply pulls a tab at the bottom to unwind the coil allowing the elastic grip to constrict and form around the handle.

Fit Over Clearance: 1.3" | Shrink range: .63" to 1.3" | Recommended Min. OD: .58" | Recommended Max. OD: 1.1"
